

UNI HANGER / PANEL GRIP

The Uni Hanger, in combination with the Panel Grips, provides a solution for hanging signage or other advertising materials from the ceiling. The Uni Hanger is attached to the ceiling with plugs and screws and is designed in such a way that every Artiteq Twister hanging wire is suitable for the system. Perlon and steel wire 1-mm and 2-mm hanging wires can be used. The Panel Grips are easily attached to the hanging wire, allowing presentation of panels with a thickness of between 1 and 4 mm.
