IMAGINE IT

BE INSPIRED. EXPERIENCE THE EASE. SEE WHAT IT DOES.

Where presentation systems are concerned, you often have just one choice. Functionality or aesthetics. That's tricky because you'd actually prefer both. But the systems you can choose from have been conceived either from a practical point of view, or they exude beauty, making usage too restrictive.

That is why Artiteq has devised the exclusive, newly designed hanging concept: **IMAGINE IT**. Presentation becomes part of the interior. Stylish and practical. Perfect.

The **IMAGINE IT** hanging system is a fusion of functionality and aesthetics. It is also extremely versatile as you can choose from two concepts and three different lengths.

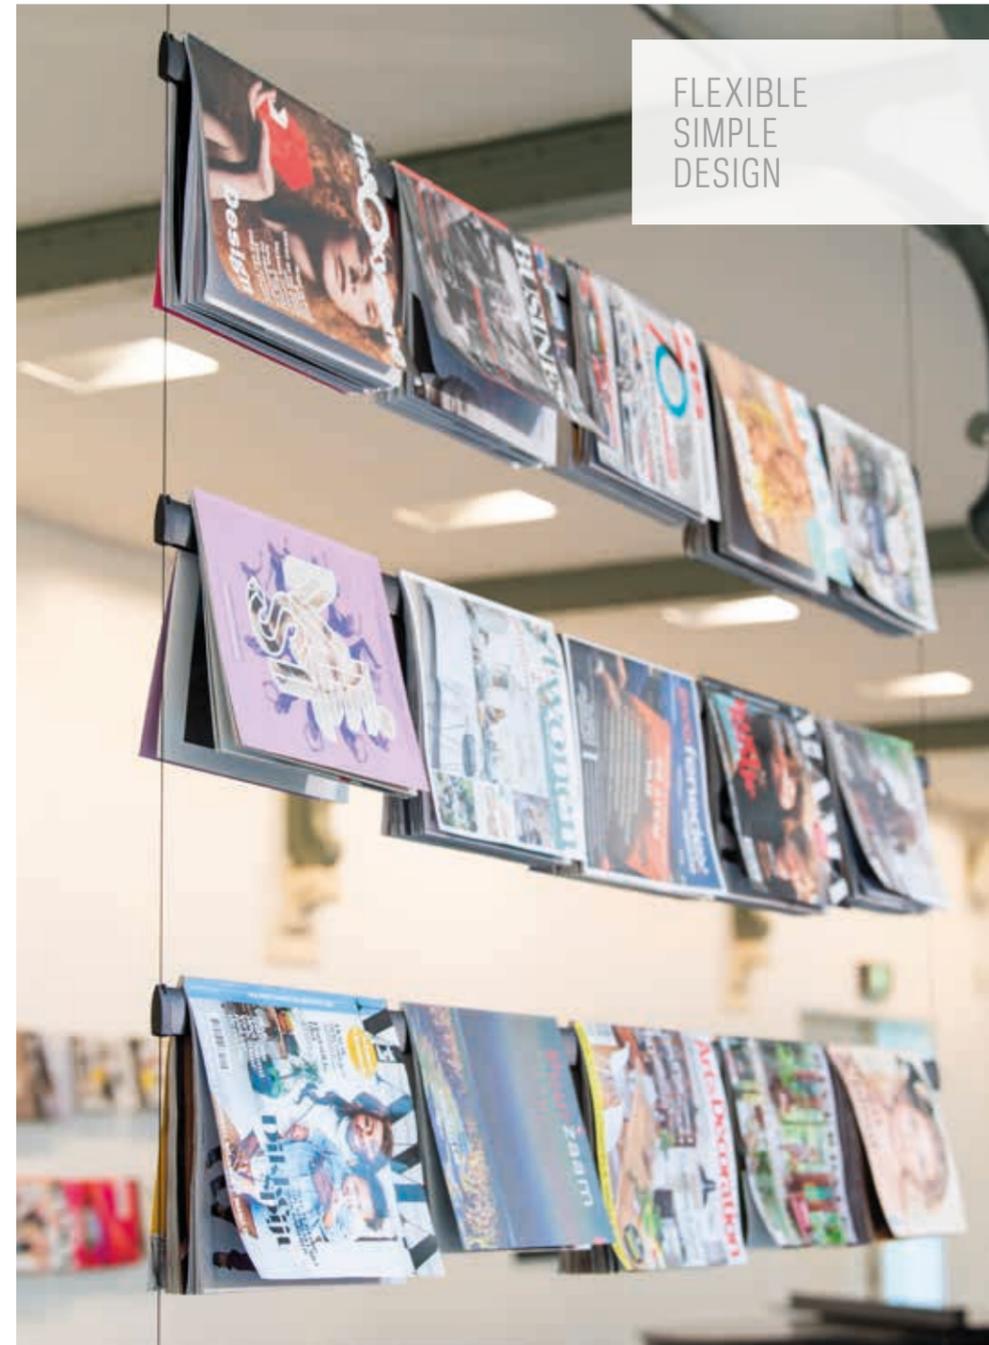

IMAGINE IT

magazines

▶ Just imagine. A beautiful office, tranquil and inspiring. A pleasant place where individuals can work energetically because there is a perfect balance between tranquillity and creativity. There is space for people to retreat to and focus on their work. And when necessary, the environment prompts them to take a fresh look.

This is the atmosphere that you want to create and you can do this with **IMAGINE IT** magazines. **IMAGINE IT** magazines is a dynamic hanging system that injects more colour and energy into ordinary workplaces. This new Artiteq concept allows inspirational magazines and trade journals to become part of the office in an appealing way. The great thing about this system is that it is unobtrusive: because of its minimalistic design, **IMAGINE IT** magazines almost appears to float.

As well as being a presentation system, **IMAGINE IT** magazines is the fastest and most stylish way of dividing a department into different autonomous workstations. This ensures that a pleasant and open atmosphere is preserved, at the same time allowing sufficient privacy to enable individuals to focus on their work.

FLEXIBLE
SIMPLE
DESIGN

▶ 99 cm

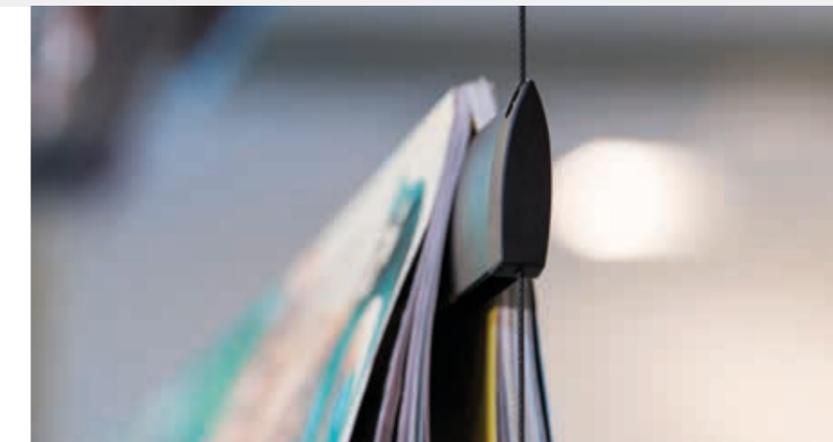

▶ 133 cm

▶ 166 cm

A narrow cable runs along both sides of the **IMAGINE IT** magazines hanging system which connects the horizontal rails to one another. Through a special mechanism in the end caps, the height of the various magazine rails can be adjusted. This enables a rail to easily be slid upwards or downwards, thereby immediately creating a different look. The rails are available in a 99 cm, 133 cm and 166 cm design, for 3, 4 or 5 magazines. You can also opt for magnetic suspension against a steel wall.

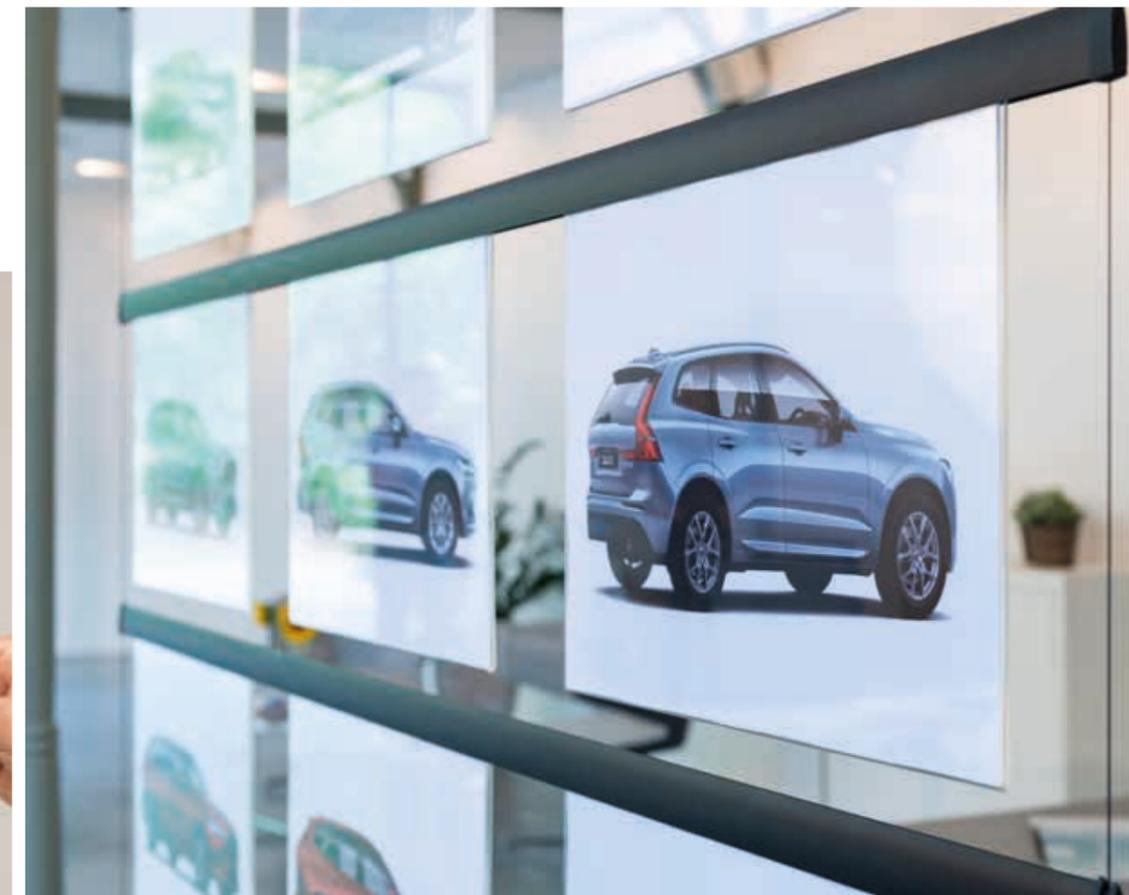

IMAGINE IT

smart pockets

Information is commonly presented using transparent displays, for example in hospitals, the real estate sector and the travel industry. Nevertheless, the systems are often far from user friendly because the acrylic pockets are difficult to attach and to move around. It is therefore also quite a struggle to change the content. The new Artiteq **IMAGINE IT** smart pockets system makes things easier for you.

IMAGINE IT smart pockets is the most flexible system for presenting ambient images, documents and product photos. Unleash your imagination and vary the layout and size. The double-sided smart pockets are available in A3 and A4 versions and the rails are height adjustable, immediately giving a different effect. But better still, the system as a whole looks splendid. Streamlined, uncluttered and modern. As well as the practical considerations, **IMAGINE IT** smart pockets is an extremely aesthetic choice that merges with interior décor and design.

The double-sided smart pockets can easily be clicked into the rail and they have a subtle notch at the side where you can easily change the content. Opt for an A3 or A4 size, or combine both for a more playful result.

IMAGINE IT IT SEEMS SO SIMPLE. AND IT IS.

The way in which you present something can make or break your display. Even a fantastic photo won't come to life if the system is inferior. It isn't convincing, it has no power of expression. Choose something more beautiful, something better.

IMAGINE IT is available in a stylish black or an industrial aluminium finish. The system is attached to the ceiling using the plug and screw supplied with the system or to the wall using clips, into which it clicks securely. You can also opt for magnetic suspension against a steel wall.

As well as the aforementioned hanging techniques, there are two more ways of attaching **IMAGINE IT**. Anyone who has an Artiteq hanging system can connect the narrow cables to it. Alternatively, the system can be tensioned along a wall or ceiling (fixed mounting).

IMAGINE IT is a fantastic solution for decoration and signage within offices and hospitals. It is also perfect for elegant presentations in shops, showrooms, experience centres, the real estate sector, the travel industry and the hospitality industry.

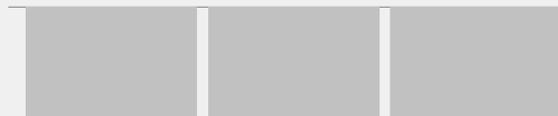

MAGAZINE RAIL

As well as the hanging IMAGINE IT hanging system, you can also opt for the wall model, where the rails are mounted directly to walls. This enables you to immediately create more tranquillity and an uncluttered look in an area. Ideal for the interiors of waiting rooms and offices, but also for nursery schools and hotel lobbies.

Get rid of those messy piles of magazines. **Magazine Rail** organises periodicals and magazines in a very attractive manner. Unlike other presentation systems, it all looks orderly and eye-catching. Suitable for a modern interior, decorated with attention to detail and the experience of users.

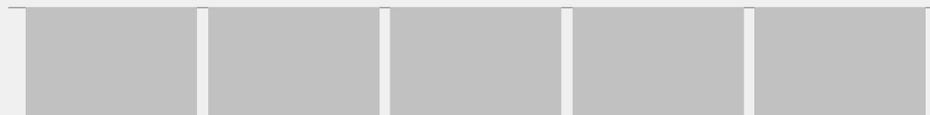

▶ 99 cm

▶ 133 cm

▶ 166 cm

The **Magazine Rail** has fixed mounting, directly to the wall. Several rails below one another allow several magazines to be presented. The rail is available in 99 cm, 133 cm and 166 cm, for 3, 4 or 5 magazines and in a black or aluminium finish.

SMART POCKET RAIL

A fixed mounting version of the IMAGINE IT smart pockets model is available: the Smart Pocket Rail. In this version, the rails are mounted directly to the wall. A speedy solution for improved, more stylish presentation of pictures, ideas and information.

From charts and models to photos of employees. The **Smart Pocket Rail** can be used for a very wide range of applications and is suitable for internal and external use. It is an ideal system for presenting content in a vivid way. It also transforms a boring wall into a dynamic part of the room.

EASY TO CHANGE CONTENT

The **Smart Pocket Rail** is mounted to the wall with clips. You can easily click the acrylic pockets into this rail. You can choose from an A4 or A3 size. Because of the notch at the back and side of the pocket, you can change the content very quickly and easily, without having to remove the smart pockets from the rail.
