DECO RAIL LED

Invisible hanging system with subtle indirect lighting

The Deco Rail LED is a hanging system and lighting profile, with subtle indirect LED lighting in one. With the lighting profile C362 by ORAC, you add indirect lighting by diffusing light from the wall. A modern, ambient finish within the interior. Combining the Deco Rail with the lighting profile results in an invisible hanging system and allows flexible adornment of the walls. With no damage to sleekly finished walls, pictures can be hung and moved around whenever you please. Hanging wires can be clicked anywhere along the rail behind the lighting profile. The indirect lighting profile is supplied without the LED.
